  - Discussion of proposed rule changes
    - Proposed Rule #1:
      - Better clarification of wording needed to describe what is permissible as when using incidental music signifying style or time period.
      - Should also be patterned after BOA if that is where this proposal came from initially.
      - Current proposal leaves too much open to the judges' judgment call on the spot.
      - The proposal needs to define sound effects.
    - Proposed Rule #2:
      - clarify what "appropriate safety railings" are. This would necessitate having an oversight person on site. What is the OSHA ruling?

Commissions project-Diane Tordoff, Christa Miller, Karla Killinger
